What is Peer Review?

• **Peer-reviewed**: a process by which a scholarly work (such as a paper or a research proposal) is checked by a group of experts in the same field to make sure it meets the necessary standards before it is published or accepted (Merriam-Webster Dictionary (2014) http://www.merriam-webster.com/dictionary/peer%20review)

• **Articles** are TEXT-based documents in the journals
  – In-depth analyze of ONE specialized topic
  – Scholars and professionals will publish their new findings as journal articles

• **Journals** are academic magazines

• **Database** is a group of “Journals” served at one place.

Introduction
Find Journal Articles in OneSearch

1. Select “Articles”
2. You can choose Keywords, Title, Author, etc.
3. Conduct a search, e.g. Cancer therapy
1. Download the article via the link provided.
2. Can expand searching results to articles without full text.
3. Can be sorted by Relevance, Date-newest, etc.
4. Refine options. e.g. shows Peer-reviewed Journals only.
5. Make a citation.
By using Google Scholar@PolyU, you can download the articles via PolyU eLinks even you are off-campus.

**Nanoparticle and targeted systems for cancer therapy**
L Brannon-Peppas, JO Blanchette - Advanced drug delivery reviews, 2012 - Elsevier
This review explores recent work directed towards more targeted treatment of cancer, whether through more specific anti-cancer agents or through methods of delivery. These areas include delivery by avoiding the reticuloendothelial system, utilizing the enhanced ...

If I cannot find the article form OneSearch...

Try our Interlibrary Loans Service!
We will try to source the article or other types of resources you need from other libraries for you.

Interlibrary Loan and Document Delivery Services (ILL) provide teaching, learning and research support to the PolyU community by borrowing literature that are not held in the PolyU Library collections for eligible users.

Submit a Request

- by online request through PolyU ILLiad System
Interlibrary Loan

Quota: 150 per academic year

1. Logon to the system
2. Select type of resources you would like to request
3. Provide the article information
4. Submit your Request

To submit this form is to acknowledge the fact that you have read the copyright declaration above and agree to it.
Find Books in OneSearch

What to do if the book has been borrowed by others?

Option 1:
Sign in and Place a hold and wait till previous user returns the book
What to do if the book has been borrowed by others?

**Option 2:**
Sign in and request a copy via **HKALL** if there are available copies in another libraries.
Pre-requisite:
1. For printed book ONLY
2. No available copy in PolyU
3. Available in other university
Why Should We Make Citations?

• To **give credit** to other's work and ideas, whether we agree with them or not

• To **show** readers the **materials** on which we base our analysis, our narrative, or our conclusions

• To guide readers to the materials we have used so they can **examine** it for themselves

What Does a Citation Contain?

- **Two parts:**
  - **In-text citation**
    Brief references of sources within the text of the paper
  - **Reference list**
    Complete list of references at the end of the paper
    (other variants: “References”, “Bibliography”)

---

Do I need to manually type in the references?

→ No!
Referencing Guide

Why Should We Use Reference Management Tools?

- Stay **organized** with all the papers, books and websites used during research
- Enhance **efficiency** in academic paper writing
- Create **accurate** in-text citation and formatted bibliographies in required citation style easily
Endnote Demo

- Create your Endnote Library
- Add references to your library
- Insert in-text citation and reference list in MS Word
Library EndNote Guide

In-text Citations

In-text citations and end of paper bibliographies (or reference lists) can be inserted from EndNote into your research paper using the Cite While You Write (CWYW) plug-in for MS Word. In this section, you will learn how to:

- Insert In-text Citations and Create Bibliographies
- Edit In-text Citations
- Format Bibliography
- Convert EndNote Field Codes into Plain Text

Insert In-text Citations and Create Bibliographies

Follow the steps below to insert in-text citations and generate reference list in Word document:

1. In your Word document, place the cursor on the point where you would like to insert an in-text citation.
2. Go to your EndNote Library and select one or more references.
3. Click on the Insert Citation icon.
4. Both in-text citation and end of paper reference list will be generated automatically.
5. Change the citation style in Word document if needed.
