New Resources

Feminist Review

Newly renewed Feminist Review is a peer reviewed, interdisciplinary journal setting new agendas for feminism. It invites critical reflection on the relationship between materiality and representation, theory and practice, subjectivity and communities, contemporary and historical formations. The FR Collective is committed to exploring gender in its multiple forms and interrelationships.

Thomson Reuters Datastream (DS) was recently upgraded to the latest version of 5.1 with additional subscription of data source on Worldscope Fundamentals. The platform now covers historical annual and interim/quarterly data of company financials in standardized format, as well as time series data on equities and stock indices. Historical data on bonds, derivatives, commodities, exchange rates and economic indicators are also included. This global financial research solution enables sophisticated analysis across a broad range of financial instruments. The database can be accessed at workstation 2 & 3 in the Research Enhancement Centre (REC) on the 3/F.

Medical resonance therapy music [sound recording]

Medical Resonance Therapy Music

The Medical Resonance Therapy Music method is based on nature orientated and holistic principles, first described by the Greek scholar Pythagoras. The effect of these principles has now been enhanced through the application of highly developed technology which makes use of the latest advances in computer technology for musical synthesis. During the past years, Medical Resonance Therapy Music has been successfully used as the main method of stress-reduction before and after operations for many different disorders and under various clinical conditions.

醫學共振音樂是依據共振的原理,也就是說, 這個特別結構的音樂包含了準確的和諧,能夠 在生物體內產生共鳴,藉由耳朵到大腦,再由 大腦到不同的器官。音樂裡內含的和諧音律能 夠促使身體達到良好的狀況,使之協調與再 生,並讓身體逐漸復元再生。這個方法也會成 為預防的重要工具。

RRR 103®	Disorders of the hormone & immune system (1 sound disc (69 min.)) M1000 .D576 CD	It is designed for people suffering from diabetes, cancer, thyroid problems, rheumatism, arthritis, allergic problems related to stress.
