

New Additions

Five e-resources related to chemistry and chemical technology were added at the end of last year:

1. **Catalysts & Catalysed Reactions** offers current awareness service on all areas of catalysis research, including homogeneous, heterogeneous and biocatalysis with emphasis on current growth areas such as chiral catalysts, polymerisation catalysts, enzymatic catalysts and clean catalytic methods.
2. **Chemical Hazards in Industry** provides quick and comprehensive information on safety and health hazards surrounding chemicals encountered in the chemical and related industries.
3. **Laboratory Hazards Bulletin** provides quick and comprehensive information on hazards encountered by laboratory workers in all fields including R&D, analytical and hospital laboratories.
4. **Methods in Organic Synthesis** is an alerting service covering the most important current developments in organic synthesis. It is designed with the synthetic organic chemist in mind, providing informative reaction schemes and covering new reactions and new methods.
5. **Natural Product Updates** provides graphical abstracts of new developments in natural product chemistry, selected from dozens of key primary journals.

Changes on Existing Databases

- **BIOSIS Previews & Biological Abstracts** – these two key databases in the biological field are now integrated into Web of Science platform.

Media Resources - Episodes from Asia

- **They Call It Myanmar: Lifting the Curtain** DS527.7 .T54 DVD

This film lifts the curtain to expose the everyday life in a country that has been held in the iron grip of military regime for 48 years. Interviews and interactions with more than 100 people throughout Burma, including recently released Aung San Suu Kyi, are interwoven with spectacular footage of this little seen nation and its people.

- **China From the Inside** DS779.2 .C448 DVD

This documentary surveys China through Chinese eyes to see how history has shaped them, and where the present is taking them. It includes perspectives ranging from those of the powerful to the powerless, the scholars and the uneducated, and the supporters and detractors of today's China.

- **The Dragon House** DS491.4 .D72 DVD

Through the life of a young Buddhist monk and the first disc jockey in this small Himalayan kingdom, this film portrays the confrontation between tradition and modernity which the Kingdom of Bhutan is currently experiencing.

Database on Trial

- **Reaxys**
(expiry date: 26 Feb 2013)

Reaxys, being a major competitor to SciFinder, is currently introduced to the Library by the publisher Elsevier. Academics and researchers in the field of general/applied chemistry, chemical technology, chemical engineering, textiles chemistry, biochemistry and pharmacology would find Reaxys useful.
