

# User Guide – How to get started with DataCamp

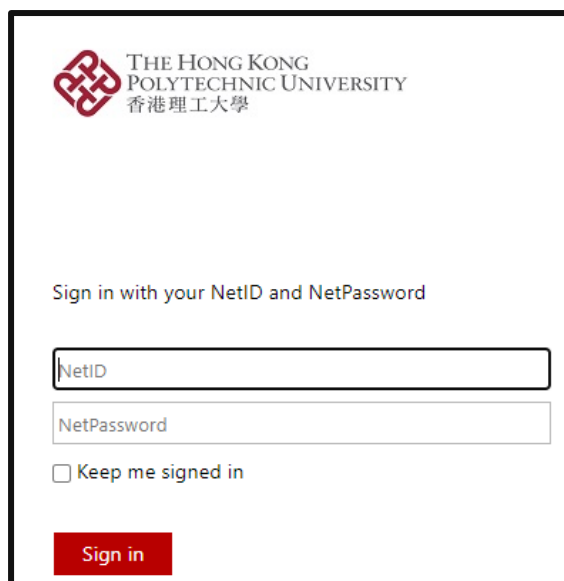

DataCamp is an online learning platform for data science. It provides a wide range of data training courses, projects and assessments with different technologies, including Python, R, SQL and spreadsheets.

You must **register** before you can access the full contents in DataCamp. Follow the steps below to get started with DataCamp.

1. Click on the [Registration Link](#) from our [DataCamp database](#) page.
2. Fill-in and submit the Registration Form. We will handle your registration request **within 2 working days**. You will then receive an invitation email like this:

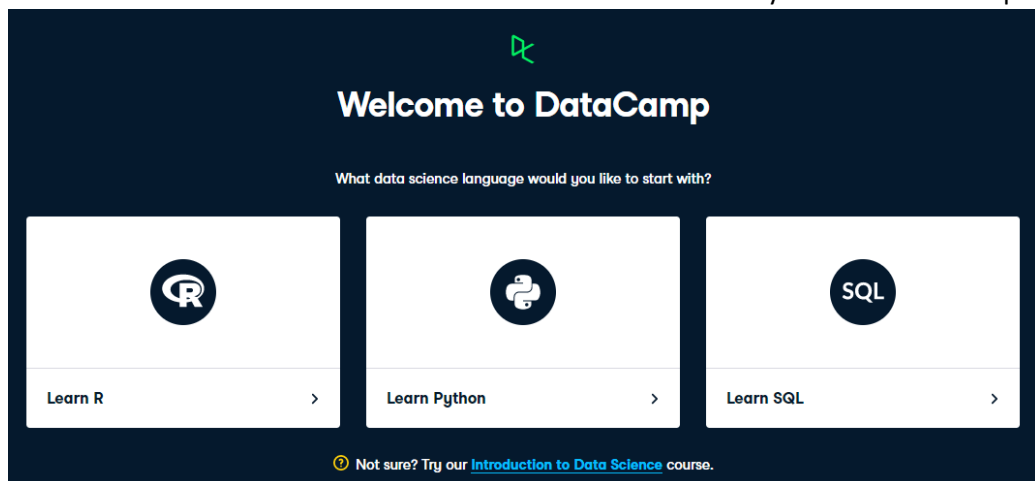

3. Click on "Join The Group" from the invitation email, then sign in with your NetID and NetPassword:

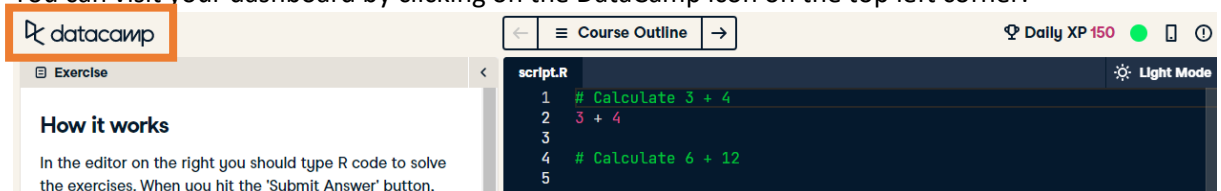

The screenshot shows a sign-in form for The Hong Kong Polytechnic University. At the top left is the university's logo and name in English and Chinese: "THE HONG KONG POLYTECHNIC UNIVERSITY 香港理工大學". Below the logo, the text reads "Sign in with your NetID and NetPassword". There are two input fields: one for "NetID" and one for "NetPassword". Below these fields is a checkbox labeled "Keep me signed in". At the bottom of the form is a red button labeled "Sign in".

# User Guide – How to get started with DataCamp

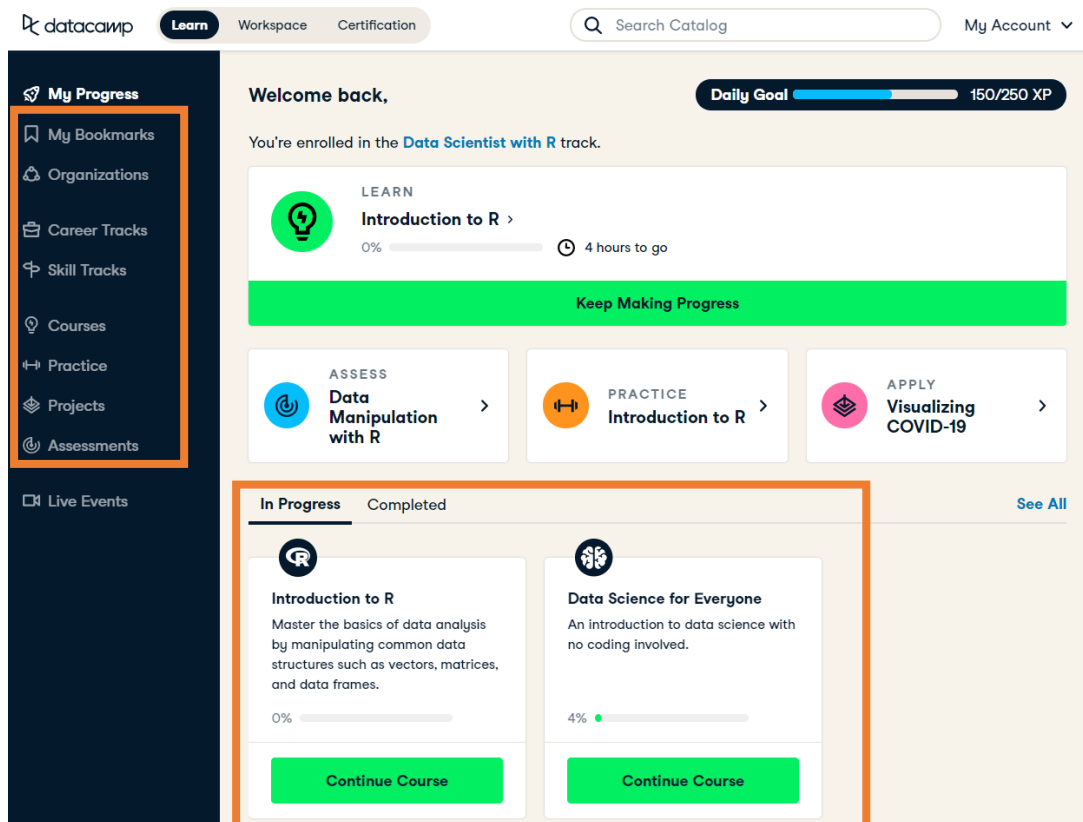

4. You will be invited to enrol in at least 1 course for the first time you arrive DataCamp:

5. You can visit your dashboard by clicking on the DataCamp icon on the top left corner:

6. On the dashboard, you can find the information such as courses you enrolled and completed. You can also explore the features like Career Tracks, Skill Tracks and Projects on the sidebar:

Please feel free to [contact us](#) for further assistance.
